

Careers Intent, Implementation and Impact Statement

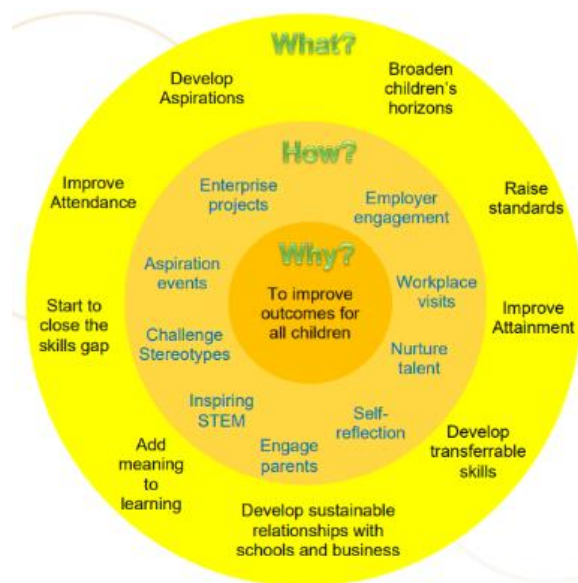

Intent

At Smallthorne, we recognise the importance of preparing our children for their wider lives – in high school and beyond. Therefore, our careers programme is designed to improve outcomes for all children as we strive to equip our children with the knowledge and skills they will need in their future.

Implementation

We want our children to be exposed to the working world and Further Education as much as possible. Therefore, our over-arching careers provision enables this through:

- **Networking**
 - Employer engagement events.
 - Workplace visits.
 - FE and HE interactions.
 - Engagement with parents.
- **Engaging experiences**
 - Enterprise projects.
 - Stem projects.
 - Aspiration events.
- **Explicit curriculum**
 - Challenging stereotypes.
 - Nurture talent.
 - Enthuse children.

Impact

We don't aim to prepare our children for jobs that already exist, but instead, we ensure they have the transferable skills to apply them to any future context. Our curriculum broadens children's horizons, raises standards and adds meaning to their learning. At Smallthorne, we develop aspirations and create excellent future citizens who will contribute positively to society in the future.
