

The curriculum is planned in well sequenced, progressive lessons. This will begin with an overarching enquiry question. The children will be taught in blocks to immerse them in their learning in order to enable them to know more and remember more.

All pupils learn about an important aspect of local area each year. This allows children to get a sense of pride about where they come from and develop their community links and sense of perspective.

IMPLEMENTATION

The World Around Us

Learning will be extended through trips, visits, visitors, and the opportunity to develop their knowledge and understanding outside of the classroom.

Extend and Enable

The children will have the opportunity to delve deeper into their learning through a variety of extension activities where they are able to use their geographical skills.

Thoughtful Questioning

Pupils will be encouraged to ask questions to develop their knowledge and understanding as well as deepen their thinking and consolidate theirs and others point of view.

Share and Consolidate

Journals are shared with the children and passed up to the next class teacher in order to share and consolidate the years learning and add the link in the chain of their geography knowledge and understanding. Assemblies linked to important events are planned for and delivered to the children.
