

At Smallthorne, we provide an exciting and thought-provoking Geography curriculum. We aim to engage and encourage children to ask questions, lead their own learning and explore ways to develop their geography knowledge and skills. The curriculum will allow children to use and develop their map skills as well as develop a curiosity about the world and people around them. Geography at Smallthorne will develop the children's knowledge of the local community where they live and celebrate what makes them unique and special. Children will have access to a multitude of activities such as, using and exploring artefacts, fieldwork and hands on experience in careers linked to humanities.

INTENT

Locational Knowledge and Place Knowledge

Pupils at Smallthorne will develop a wide range of understanding and knowledge of where places are located both in Britain and around the world. They will investigate and make links.

Topic specific Vocabulary

Pupils at Smallthorne will be taught a variety of geographical vocab, which will develop and increase as they move up the school.

Human and Physical Geography

Pupils will learn the difference between human and physical geography and be able to identify the features as well as making observation and expressing opinions about the environment.

Geographical Skills and Fieldwork

Pupils will have the opportunity to carry out field work and develop and apply their questioning and enquiry skills.
